

About the “Youth for Change Modules” Folder

Introduction

Youth for Change is one of the four key areas of work for the World Scout Committee (and World Scouting) in the 2011 to 2014 Triennium (at least).

The main topics of the Youth for Change workshop are *Youth Involvement*, *Generations in Dialogue*, *Skills for Life* and *Youth Changing Communities*. These four topics have been formulated into four modules which can be used either as one whole 3-day workshop, or can be adapted to the needs of national scout organizations, and used separately.

Each of the modules contains detailed guidelines (with supporting materials) on how to run the workshop. It is important to note that NSOs are encouraged to adapt the modules to their local contexts, while preserving the core meaning of each module.

Content

Within the “Youth for Change Modules” folder you will find the following content:
